

Job Announcement: Seasonal Forestry Technicians

FRST Corp is accepting applications for multiple temporary forestry technicians for the 2020 field season. FRST is a forestry and environmental consulting firm located in Grass Valley, CA whose experienced professionals provide clients with advanced forest and vegetation management solutions through the application of innovative technology and science. We are committed to high-quality professional service and client care, the conservation and wise use of natural resources, and strong business and land ethics. **Join our team of dynamic forest resource professionals and build your career in forest management!**

Job Purpose

Seasonal Forestry Technician: Successful applicants will work in a crew setting under the supervision of staff foresters and RPFs to complete timber sale and fuels reduction project preparation, forest inventories, and other aspects of forest management and planning. The position will be based in Grass Valley, CA, however extended travel, including camping, may be required.

Duties and Responsibilities

- Timber sale and fuels reduction project layout including timber marking and flagging operational boundaries, Watercourse and Lake Protection Zones, and other protection/retention zones
- Forest inventory and cruising
- Uses a smart phone or tablet to record inventory and spatial data in ESRI Collector and other applications
- Assists staff RPFs and other professionals with other project work as needed
- Performs all tasks in accordance with company safety policies. Uses company equipment safely and respectfully
- Applies self-motivation, initiative, excellent organizational skills, exercises situational discernment, and maintains a positive attitude
- Must be committed to maintaining the confidentiality of all of employer (FRST), client, and project data and information

Minimum Qualifications

- Enrolled in a forestry or closely related degree program; or commensurate work experience
- Knowledge of northern California tree species
- Valid California driver's license and clear driving record
- Ability to work safely, efficiently, and respectfully with others and alone in steep, rugged terrain under adverse weather conditions
- Ability to navigate terrain with GPS or map and compass

Desired Qualifications

- Working knowledge of California Forest Practice Rules
- Bachelor or Associate Degree in Forestry or other closely related field
- Experience preparing timber sales, including flagging Watercourse and Lake Protection Zones, Equipment Limitation Zones, unit boundaries, etc.
- Knowledge of use of basic forestry tools and timber inventory methods
- Experience conducting timber or other natural resource inventories
- Working knowledge of GPS data collection processes

Working Conditions

- This position spends extended periods of time working outdoors with travel and camping
- The position occasionally requires working and/or traveling on weekends
- Operates four-wheel drive vehicles and ATVs in a safe manner on steep forest roads and in accordance with company policy
- Works safely, effectively, and respectfully with others and alone

Physical Conditions

- Ability to lift 50 lbs and carry the load in a pack or vest
- Do repetitive tasks with few breaks
- Work in adverse weather conditions including but not limited to high heat, rain, snow, and cold temperatures
- Walk, hike, or stand for extended periods of time with others and alone in steep, rugged, and/or remote terrain under adverse weather conditions

Compensation

FRST offers competitive compensation based on qualifications and experience.

Application Requirements

Interested applicants must submit a cover letter and resume directly through [our career web page](#) , the QR code on the previous page, or access through www.frstcorp.com (and select “Careers”) by Friday, February 28, 2020.
