Position: Inventory Forester

Green Diamond is seeking qualified candidates for a full time position as an Inventory Forester supporting operations in Humboldt County, California. The Inventory Forester collects high-quality forest inventory data and ensures it is accurately incorporated into Green Diamond's inventory system.

Responsibilities include:

- Designs and lays out timber cruises, updates GIS data, reviews contractor work, conducts field measurements, and supports forestry projects.
- Delineates forest stands using aerial photographs, drone imagery, LiDAR, and other remote-sensing technologies.
- Uses ArcGIS, LiDAR, remote sensing, and drone imagery to improve inventory, mapping, and data quality.
- Provides additional support to the Forestry Department as time and operational needs allow.
- Requires a degree in forestry, natural resources, or a related field, or equivalent field experience, along with strong timber-cruising and geospatial skills. A valid driver's license is required.
- Approximately 60% of the position involves fieldwork.
