

## EXCITING OPPORTUNITIES FOR EXPERIENCED FORESTERS ACROSS IRELAND

### What's on Offer?

Coillte is currently offering exciting opportunities for foresters with a range of expertise, diverse backgrounds and experience to join our forestry team nationwide. We grow our forests sustainably to produce quality wood and wood products but there's so much more going on in our forests! Forests provide many benefits and products for society and our managers balance all these needs carefully to get the very best from our forests. Successful candidates will have the opportunity to work in a range of operational, technical and environmental roles across our business.

### Who we Are?

At Coillte we are privileged to be custodians of 7% of Ireland's land. The forest industry will double in size over the next 10 years and Coillte will be at the core with an innovative supply chain and a consistent reinvestment in the next generation of forests.

We combine forestry with productive land solutions that enable Coillte to maximize the value of each hectare, delivering on our social, economic and environmental commitments.

We are enabling Government Policy to be implemented in key areas such as forest development, biodiversity and environmental protection, renewable energy, recreation and tourism, all of which are leading to significant job creation.

As stewards of the land, we ensure our forests are managed in accordance with strict environmental, social and economic criteria. The standards for responsible forest management are high and we expect the same standards from our employees in Coillte forests, our partners and suppliers that work alongside Coillte in maintaining our forests.

At Coillte our values guide the way we work. We take great pride in our employee development, encourage each employee to have a voice and are committed to ensuring each employee feels rewarded in their place of work.

## Who we are Looking For?

The ideal candidate will have a drive to exceed goals and push self and others towards high levels of performance and have a good understanding and knowledge of our customers' needs. They will have excellent communication skills with an ability to actively listen, negotiate and build relationships in a demanding environment. They should have excellent interpersonal skills and be proactive in identifying issues and resolving challenges

The ideal candidate should have Forestry or similar based equivalent degree. They should have knowledge and experience to promote a safe-working environment and ensure compliance with environmental, regulatory and silvicultural standards. The ideal candidate should be a credible individual with previous experience in managing contractors and/or staff.
