

Job Announcement Forestry Technician November 2021

Want to get paid to hike and camp in the woods? Come work for a growing company on ecologically focused projects with opportunities to learn alongside experienced ecologists!

What We Do

Resilient Forestry works in all aspects of forestry, forest science, and forest management, specializing in ecological forest restoration. We are based in Seattle and work across the Pacific Northwest (PNW) with small and large public and private landowners on a range of projects.

What We are Looking For

We are looking for motivated folks to collect data in forests across Washington and Oregon during the 2022 field season. You will team with Senior Technicians to accomplish field projects. This will be a full-time seasonal position. Start and end dates are flexible (February-March and August-October). Workload will vary up to 40 hrs/wk. This position requires significant travel: likely 80-100% of weeknights will be spent away from home, often camping in the woods. \$18-20/hr with mileage and per diem. Applications will be considered on a rolling basis.

Qualifications

- Forestry- or ecology-focused education in progress or completed
- Experience and/or openness to working in the field collecting data
- Ability to stay organized and keep track of equipment and data
- A desire to learn about PNW forest ecology and forestry operations
- Positive attitude and willingness to foster an inclusive work environment
- Ability to travel, work, and camp in rough terrain and adverse conditions
- Valid driver's license and access to a vehicle
