

**Department** Forest Management  
**Position Title** GIS/Inventory Forester  
**Position Location** Junction City, Oregon  
**Immediate Supervisor** Area Manager

**Positions Supervised by this Position** None

---

**KEY FUNCTION OF POSITION:**

The GIS/Inventory Forester will provide the technical expertise of GIS and inventory systems required to manage the collection of timber inventory and GIS data at the local forestry office.

**SUMMARY OF DUTIES AND RESPONSIBILITIES:**

- Provide timely update of GIS and Inventory databases to reflect forestry operations.
- Conduct spatial data editing using LRM and/or ESRI ArcGIS editing tools.
- Satisfy GIS and reporting requests related to daily needs of operational forestry staff.
- Provide technical support for local forestry staff.
- Participate with the regional staff to establish an annual cruise plan.
- Implement the annual cruise plan through the management of in-house and third-party contract cruising efforts. Perform check cruising and applicable data quality control checks.
- Ensure timely update of LRM and/or inventory databases to reflect new cruising.
- Conduct project-specific cruising and audit cruising of third-party contractors.
- Ensure that corporate data standards and data consistency is achieved.
- Perform ad-hoc queries and analyses as needed by local forestry staff.
- Coordinate with the Regional Office to update and enhance existing systems to better meet the needs of local forestry staff.
- Support and participate fully in local SFI program.
- Ensure that environmental or financial risk management reporting is conducted in a timely and professional manner to your Area Manager and, if appropriate, local Safety Coordinator.
- Respond to internal and external information requests in conjunction with management and team members.
- Actively participate within the organization to ensure all timberland management investment services meet or exceed client commitments.
- Represent Campbell Global at the local level, maintaining positive public relations.
- Other duties as required.
- This Position is considered exempt based on job responsibilities.

**QUALIFICATIONS FOR POSITION:**

- Bachelor of Sciences Degree in Forestry, GIS or related field.
- Equivalent of two years previous work experience in forestry and/or GIS.

**EXPERIENCE AND KNOWLEDGE REQUIRED/PREFERRED:**

- Demonstrated knowledge of forestry, forest inventory and forest mensuration, highly desirable.
- Demonstrated proficiency with ESRI ArcGIS software.
- Knowledge of SQL and relational databases, desirable.
- Work experience using industrial GIS and forest inventory systems, preferred.
- Work experience managing timber cruise contractors, preferred.
- Work experience using industrial forest inventory system, preferred.
- Must have:
  - Planning, budgeting, and forecasting skills.
  - Familiarity with legal implications in key areas of responsibility.
  - Strong analytical and critical-thinking skills.
  - Demonstrated interpersonal skills.
  - Good communication skills, both oral and written.
  - Good computer skills, especially MS Excel and Word.
  - Valid Driver's License and good driving record.
  - Ability to work alone in the outdoors over extremely rough, brushy, and uneven terrain in all weather conditions required.
  - Ability to lift up to 50 pounds daily.

---

**NOTE:** The above statements are intended to describe the general nature of work to be performed; they do not constitute an exhaustive list of all responsibilities, duties, and skills required of personnel so classified.
