CLOSING DATE: Open until filled

SALARY AND BENEFITS: Hourly, Starting at 16-18 dollars per hour depending on Experience. Health Insurance Provided after 90 day probationary period. Paid drive time to job site from location of business.

GENERAL DESCRIPTION:

Habitat Contracting LLC is a small environmental restoration company based out of Eugene, Oregon. We perform contract work for local, state and federal agencies and organizations on environmental restoration contracts. Typical project types we carry out include removal of invasive species through mechanical and chemical control methods, native plant planting and plant maintenance, building wildlife exclosures, erosion control work and much more.

QUALIFICATIONS:

- Feel comfortable working alone and safely in large forests for long periods of time
- Enjoy spending time outside in the forests of Pacific Northwest
- Comfortable working in off-trails in brush, undergrowth, and thickly forested areas
- Comfortable working in a variety of conditions including rain and extreme temperatures
- Able and willing to work long field days in rugged terrain
- Ability to operate chainsaws and other power equipment
- Possess a valid driver's license
- Possess a vehicle capable of driving various distances throughout the Pacific Northwest region
- Able to take direction and communicate (via phone and email) with team members

- Works well in a team and enjoys the camaraderie of working in a crew
- Have interest in ecosystem conservation, natural resources, or environmental protection
- Basic native tree identification skills is required
- Owns or is willing to purchase required work gear (boots, rain gear, etc.)

PREFERENCE WILL BE GIVEN TO THOSE WHO:

- Have prior experience or college degree in environmental restoration or related field
- Are proficient in cellular mapping software (Avenza, OnX, etc.)
- Have a deep understanding of PNW ecosystems and how they function
- Have a Oregon Commercial Pesticide Applicator License
