

Integrated Resource Management

Consulting Foresters · Restoration Ecologists
Unmanned Aerial Systems

Job Opening - Forester

Integrated Resource Management (IRM) is a full service forestry consulting firm based in Philomath, Oregon. IRM assists landowners and agencies with a full range of forest management services including forest inventory, timber cruising and stumpage appraisals, timber sale layout, and restoration throughout the Pacific Northwest, California and Alaska. Please visit www.irmforestry.com to learn more about IRM.

IRM is currently recruiting a full time, permanent, salaried Inventory/Project Manager/GIS Forester to take a lead role in managing projects for our growing company. This position will be based out of our Philomath, Oregon office, located 10 minutes from Corvallis. This position will be responsible primarily (80%) for managing a 10,000 acre restoration oriented forest located in Benton and Lincoln counties Oregon. The remainder of the time the successful candidate will be managing projects ranging from small to large-scale forest inventory contracts, timber cruising for pre-harvest analysis and appraisals, to laying out and administering restoration oriented timber sales. The work environment will involve 50% in the office analyzing data, using ArcMap to make maps, managing spatial data sets, report writing and logistics planning, and 50% field work.

This is an ideal position for a highly motivated individual interested in stepping into a position with major responsibilities and challenges in a highly respected forestry consulting firm in the PNW.

The successful candidate will exhibit a wide range of skills necessary to operate in the highly competitive consulting forestry world. This person **MUST** have expertise in forest inventory, cruising systems, and logging systems used in the PNW, excellent oral and written skills, be proficient with the full range of forest technology including software used to complete projects, and a working understanding of the range of silvicultural systems used in the PNW, both industrial and alternative.

Requirements:

- **Must** have an AS or a BS in Forest Management or Forest Engineering with demonstrated coursework in Forest Mensuration and Silviculture and logging systems.
- **Must** be highly experienced in the use of ArcMap®, ArcGIS Pro with the ability to conduct spatial analysis, manage spatial data sets, and be proficient at map making.
- Field experience with ArcPad® preferred.
- Ability to perform field work in a variety of weather and topographic conditions

- A minimum of three years work experience in forestry.
- Open minded and enthusiastic about taking on new challenges, tasks, and projects.
- Self-motivated, high level of work ethic and able to work unsupervised for long periods of time.
- Willing to travel periodically away from Philomath throughout the PNW and California.
- Be a licensed driver with a clean driving record.

Compensation:

- \$55,000 – \$85,000 per year DOE
- Sales bonus
- Health Benefits – including dental and vision
- Vacation – 15 days per year
- Retirement – 401k with Employer match and annual profit sharing up to 10% of salary
- Holiday – 6 federal holidays per year
- Company pickup truck

This position is a permanent full-time salaried position with benefits.
