

OSU Extension Service

Forestry & Natural Resources Program

We are hiring!

Be part of our team...

Make a meaningful difference in Oregon's communities. OSU Forestry & Natural Resources Extension is recruiting an energetic, creative, and collaborative individual committed to sustaining natural resources and strengthening communities and economies. Our team fosters and operates within a strong workplace culture of collaborative planning, group projects, and mutual support. We share a commitment to promote and enhance diversity and contribute to a welcoming, inclusive, and respectful work culture.

More about us...

As the largest program of its kind in the Country, OSU Forestry & Natural Resources Extension brings a unique combination of professional familiarity and depth. We work together in a network of county agents, topic focused specialists and a fire specialist team. Together we bring additional subject depth and breadth to the program. This creates a space for independent work, but also for many on-going collaborations.

Now recruiting for...

Two county-based Extension Forester positions, one in south-central Oregon, covering Klamath & Lake Counties and one in the mid-Willamette Valley covering Benton, Linn, and Polk Counties. These are full-time, fixed-term professor of practice positions.

Oregon State
University

Find a career, not just a paycheck

OSU is an AA/EOE/Vet/Disabled

Have an impact...

- ◆ Bring practical, locally-relevant, science-based information to improve people's lives, livelihoods and the environment.
- ◆ Provide rich and inclusive learning opportunities through workshops, field tours, demonstrations, and digital media offered in non-formal education settings and with volunteers.
- ◆ Support the community in sustainable forestry & woodland management, habitat restoration, community fire preparedness and more!
