

California Timberlands Division
PO Box 68
Korbel, California 95550

November 6, 2020

Position: Registered Professional Forester

Green Diamond has a sensational career opportunity for you to join our company as a Registered Professional Forester (RPF). This job is located on the coast of Northern California (Humboldt and Del Norte counties) where the redwood forest meets the ocean. Here Green Diamond owns roughly 380,000 acres of sustainably managed FSC certified redwood and Douglas-fir timberlands.

Responsibilities: The RPF is responsible for all stages of Timber Harvest Plan (THP) preparation from initial harvest unit and road assessment through field work, THP preparation and approval. This includes compliance with all State regulations and Green Diamond standards and guidelines in all stages of the process. The RPF ensures that all harvest units and logging roads are properly engineered, that the work is correctly flagged and marked in the field and that the THPs accurately document that work. The RPF works closely with the logging and roads supervisors to provide professional advice during operations. Must have good communication skills as this position interacts with internal departments as well as outside agencies, contractors and the public during the process.

Benefits include competitive wages and bonus plan, vacation, paid holidays, health benefits package, life insurance, 401k and a company vehicle for business use.

We will consider candidates for this position that meet the qualifications to take the California RPF exam and have a strong working knowledge of forest engineering and the California Forest Practice Rules.
