

Pacific Forest Management

Is a full service consulting forestry firm located in Forks, Washington on the Olympic Peninsula. Our work area includes coastal Washington and Oregon.

We specialize in assisting our clients with management of their forest properties. Preparing forest management plans, conducting and maintaining forest inventories, implementing silvicultural prescriptions and providing professional forestry advice is what we do every day.

Our clients are a diverse group including large industrial owners, Indian Tribes, local government, conservation groups, and small landowners.

We focus on delivering high quality services to our clients to help them meet the ever changing forest practice regulations.

Forks, Washington offers an exciting opportunity to practice hands on forestry skills. Surrounded by thousands of acres of forestland this area offers a unique opportunity to put your skills to work in a working forest setting beside other professionals from many disciplines. The Olympic Peninsula is also known for its outstanding recreational opportunities to keep you busy during your spare time.
