

TITLE:	Investment Analyst	FLSA STATUS:	Salaried, Exempt
DEPARTMENT:	Investment Management	POSITION TYPE:	Full-time
LOCATION:	Birmingham, AL	SUPERVISOR:	Director, Investment Strategy and Analytics

JOB SUMMARY

RMS is a global forestry-centered investment manager with significant expertise in all phases of institutional timberland investing and forestland management. Founded in 1950 as a consulting forestry firm, RMS now manages USD 4.2 billion in client timberland assets as a registered investment advisor with vertically integrated forestry operations. Our investors are our partners, and we strive to align our business and financial interests with theirs. RMS is employee-owned with headquarters in Birmingham, Alabama, and offices across the U.S. South and Brazil.

RESPONSIBILITIES

RMS seeks to hire a professional who values sustainable, long-term forest stewardship and the responsibility that comes with being an investment fiduciary. This position will be part of the Investment Management team within RMS, which is responsible for the management of client timberland portfolios and associated client interactions.

DUTIES

Activities include, but are not limited to:

- Understand our business and the perspectives of a diverse group of clients and colleagues
- Conduct analysis and provide concise, well-supported guidance to advance team projects:
 - Ongoing monitoring of client timberland portfolios
 - Timberland acquisitions
 - Business development projects
 - Ad-hoc client or Investment Committee questions
- Help produce periodic client reports and presentations
- Learn and help maintain RMS's data management and financial modeling standards
 - Manage tabular data
- Collaborate heavily with colleagues on cross-functional project teams to ensure the best client outcome
- Manage multiple projects simultaneously and keep open dialogue with your team and other contributors to determine prioritization
- Advance projects proactively and stick to deadlines

QUALIFICATIONS

Our ideal candidate has experience building models in Excel, working with data, and creating documents with compelling visual summaries of analyses. You should also hold a degree from an accredited postsecondary institution. We welcome qualified candidates that hold degrees in a wide range of fields. If there is a good fit, we will make sure to teach you what you need to know about forestry, investment management, and other technical requirements for the job.

Qualifications will be assessed during the interview process primarily by means of a case study. You'll be asked to review a case with quantitative and qualitative inputs, create a financial model from scratch to answer case questions, and provide us with a written recommendation.

RMS hopes that any new employees embrace and contribute to a collaborative culture. RMS also encourages people from underrepresented groups or with non-forestry backgrounds to apply.
