

POSITION SUMMARY

E&S Environmental Chemistry is seeking a Research Associate to join our team. The successful candidate will have an interest in exploring wide-ranging applied research related to a variety of disciplines including forest ecology, water quality, climate change, and geospatial analytics. Strong analytical and computing skills are required, including experience with scripting languages (e.g., R, Python) and a variety of GIS software. An existing or nearly completed M.S. degree in environmental science or related field is preferred. Candidates with a B.S. degree are welcome to apply.

COMPENSATION

Work will occur on a part-time basis at an hourly rate commensurate with experience for a minimum of 6 months. Work is expected to be primarily completed at E&S offices in Corvallis.

TO APPLY

Send a brief cover letter summarizing qualifications and resume to: info@esenvironmental.com

Position will remain open until filled; preferred start date is prior to June 1, 2023

COMPANY OVERVIEW

E&S Environmental Chemistry, Inc., based in Corvallis, Oregon, has been conducting environmental research and assessment nationwide since 1988. We specialize in geospatial, chemical, biological, biogeochemical, and hydrological investigations that involve water quality, soils, air quality, fisheries, wildlife, climate change, and land use.
