

Montana Timberlands Division

February 15, 2022

Position: GIS Analyst

Green Diamond is currently seeking a qualified candidate to fill this new role of GIS Analyst located at our beautiful timberlands operation in Montana. The GIS Analyst assists in the maintenance, operation, and ongoing development of the geographical information system (GIS). Assures the proper measurement, estimation, and reporting of Company timber and land assets. Assists in the preparation of resource management plans and models; and provides support to all Timberlands functions to maximize the value of Green Diamond's fee timber resource base. Requires a bachelor's degree in Geographic Information Systems, Forestry, Natural Resources or Information Technology or the equivalent combination of education, training or experience that provides the required knowledge, skills and abilities.

This is a full-time position working out of the Montana Timberlands Office located in Kalispell, Montana. This role will work in-between the Kalispell office and our office in Libby.

Benefits include: Competitive wages based on experience and qualifications, bonus plan, vacation, paid holidays, health benefits package, 401k and a company vehicle for business use.
