Position: Seasonal Forestry Technician

Green Diamond is currently seeking a qualified candidate for a Seasonal Forestry Technician located at our operations in Klamath Falls, Oregon. The Seasonal Forestry Technician provides high quality field assistance to the District Forester in the engineering of harvest units and roads for the development of Harvest Plans. This position supports a wide variety of field layout tasks associated with harvest plan design to include: flagging boundaries, stream protection zones, property lines, wildlife retention areas, wildlife key habitat features (green trees, snags, ponds, seeps etc.), tree marking, and stream classification.

The successful candidate will spend a portion of their time working in the burned area of the 2021 Bootleg Fire that impacted Green Diamond land. Part of the work will be surveying fire severity and conifer mortality. This is an important task that will help predict reforestation efforts over the next several years.

This job is located at our operations in Klamath Falls, Oregon. Here Green Diamond owns over 600,000 acres of SFI sustainably managed mixed conifer species which are primarily pine and Douglas-fir.
