**Position: Wildlife Technician, Seasonal**

This job is located on the coast of Northern California (Humboldt and Del Norte counties) where the redwood forest meets the ocean. Here Green Diamond owns roughly 380,000 acres of sustainably managed FSC certified redwood and Douglas-fir timberlands.

The primary responsibility of the Seasonal Wildlife Technician is to conduct surveys for spotted owls as required by Green Diamond's Habitat Conservation Plan and timber harvest planning. The technicians may assist with other wildlife surveys as needed. This seasonal position starts in March and works through the end of August.

**ESSENTIAL FUNCTIONS:**

- Conducts spotted owl surveys using electronic calls and visual searches. Will conduct survey work alone, at night, with radio contact.
- Determines nesting status at spotted owl sites.
- Utilizes compass, maps, aerial photographs and record spatial information
- Enters field data accurately and efficiently on forms and in computer databases.
- Assists in a variety of other wildlife surveys as needed.
- Participates actively in company safety program.
