

NOW HIRING FOR SUMMER 2024

Fisheries Technician Position

OREGON STATE
UNIVERSITY
DEPARTMENT OF
FISHERIES, WIDLIFE, AND
CONSERVATION SCIENCES

Job Summary

Assist a master's student in the Fish Behaviorscapes Lab with juvenile Chinook Salmon sampling in the Grande Ronde watershed near La Grande, Oregon. The project focuses on juvenile Chinook dispersal patterns based on spawning location, riverscape conditions, and restoration efforts in Catherine Creek.

Hourly rate: \$16.50-18.50

Job Duties

- Conduct fisheries surveys (snorkeling, electrofishing)
- Handle, measure, and tag live fish
- Hike through streams and navigate to field sites
- Record and enter data
- Maintain, clean, and organize field gear
- Assist other graduate students, lab manager, or PI

Qualifications

- Two years of undergraduate coursework in relevant field (ecology, fisheries, wildlife, etc.)
- Admitted to an academic institution during the Summer 2024 term
- Able to work in difficult field conditions
- Experience conducting field sampling preferred
