The Fremont-Winema National Forests is located in Southern Oregon. Administratively combined in 2002, the Fremont-Winema National Forests offer 2.3 million acres to explore!

The heavily timbered western portion of the Forest is bordered by the crest of the Cascade Mountain Range and Crater Lake National Park, and stretches east into the Klamath River Basin. Near the floor of the Basin, the Forest opens to vast marshes and meadows associated with Upper Klamath Lake and the Williamson River.

To the north and east, extensive stands of ponderosa and lodgepole pine grow on deep pumice and ash that blanketed the area during the eruption of Mt. Mazama (now Crater Lake) nearly 7,000 years ago. The eastern portion of the Forest offers expansive views, dramatic cliffs, and solitude. The area is known as Oregon's Outback, and provides the self-reliant recreationist the opportunity to discover nature in a rustic environment. If you prefer, you can find yourself by yourself.

The Forest's Headquarters is located in Lakeview, Oregon and shares the Lakeview Interagency Office with the Bureau of Land Management's Lakeview District. The Forest's seven Ranger Districts are managed as four geographical zones; Lakeview and Bly Ranger Districts (SE Zone), Silver Lake and Paisley Ranger Districts (Winter Rim Zone), Chemult Chiloquin Ranger District (Mazama Zone), and Klamath Ranger District.

More than 300 species of fish and wildlife can be found on the Forest. Game animals most often hunted include mule deer, Rocky Mountain elk, and pronghorn antelope. The Forest's diverse habitats also support a variety of wildlife including numerous water and wetland birds including eagles, osprey, and herons. Several varieties of trout inhabit Forest lakes and streams, and a few lakes support warm-water fish, such as large-mouth bass. Small populations of some of the larger predators (black bear, mountain lion, and bobcat) and a great variety of non-game species can also be found.

The Oregon-California border marks the Forest's southern boundary, while its eastern boundary includes part of the Warner Mountain Range. To the north and west, the Forest is bounded by the Deschutes, Rogue River-Siskiyou, and Umpqua National Forests. Three wilderness areas can be found across this Forest; Mountain Lakes, Sky Lakes and Gearhart Mountain Wilderness. Picturesque rock formations cap most of the high-elevation ridge tops.
