

Transect is seeking a dedicated intern to join our environmental team at our cutting-edge environmental due diligence software startup.

As an intern, you will play a crucial role in ensuring the accuracy and reliability of our platform by identifying, repairing, and fixing broken links within our database. You will work closely with our experienced environmental specialists, learning the intricacies of environmental due diligence and compliance. This is an excellent opportunity to gain practical experience in environmental data management and contribute to the development of innovative solutions for sustainable practices.

Educational requirements: recent graduates with Bachelors in Geology, Ecology, Environmental Science, or Natural Resources Management. Or, Masters students with a focus of study in any of the above fields.

Ideal candidates are detail-oriented, proactive, and passionate about environmental protection.

- This position will be part time and remote
