Job Description | Managing Arborist

Date
January 2021

Department
Tree Operations

Location
Washington, D.C.

Classification
Full-Time, Exempt

Employment Terms
At Will

Reporting to
Director of Tree Operations

Summary
The Managing Arborist manages Casey Trees’ Urban Foresters and oversees all year-round and seasonal programs requiring a high degree of volunteer/partner coordination, interaction, and support. The incumbent mentors subordinate staff in a variety of ways, such as identifying relevant educational and training materials, responding to technical questions, participating directly in training sessions, analyzing site selection, species selection, and overall design strategy as it relates to canopy increase, stormwater mitigation, and operation efficiency and the like. Finally, the incumbent coordinates/manages tree orders from a variety of sources and holding yard inventory management.

Essential Functions
- Manages and mentors a team of five Urban Foresters, GIS Analyst, and Data Technician
- Actively searches, designs, and implements effective methods to educate, enhance performance, recognize performance, and promote safe work practices
- Supports the Director to onboard staff, develop/implement in-house training sessions, etc.
- Ensures adherence to organizational policies and procedures, including but not limited to attendance, timeliness, conduct, volunteers, resident interaction, and financial resources etc.
- Conducts periodic performance appraisals of subordinate staff
- Works closely with the Director to curate and implement strategies for business development, particularly focused on privately owned land parcels
- Works closely with the Director on the design, implementation, and evaluation of tree planting programs including Community Tree Plantings (CTP); RiverSmart Homes (RSH); Rebate Program; Fee-for-Service and other tree planting grants, projects, and initiatives
- Works collaboratively with other CT departments to ensure seamless event execution, donor satisfaction, program improvement, attainment of development goals, exploration of new partner opportunities, etc.
- Manages and coordinates grant deliverables for relevant projects as well as regularly communicate with partners, stakeholders, and donors as needed
- Manages tree procurement including sourcing, invoicing, delivery, inventory, reconciliation, etc.
- Works closely with the Director of Tree Planting to improve workflows and structures that ensure smooth and consistent tree installation, maintenance, and pruning strategy and care activities
- Works with Director and UF Manager to schedule seasonal installation
- Supports development activities by promoting tree planting programs and activities, identifying/coordinating signature events for corporate partners, commemorative tree ceremonial events and others
- Manages data for the Tree Operations department, including watering maps on GIS, maintenance maps on GIS, the design platform on GIS, Survival study on GIS, and CRM for programming and tree rebates
- Manages/supports tree planting events/programs/activities involving trained and untrained volunteers including but not limited to planning, logistics, training, and related support
- Tracks trees to ensure sound internal controls from delivery, inventory management, planting and reconciliation of planting data including mortality checks and verification
- Provides advice and technical assistance to support classes, events, public inquiries, community outreach, etc.
- Stays current on arboriculture/urban forestry best practices and emerging trends
- Develops/implements strategies to cultivate new, and advance existing relationships to engage, educate and involve volunteers and others in attainment of our goals and mission
- Communicates and distributes information/promotional materials including flyers, brochures, newsletter articles, press releases, etc.
- Attends community meetings to promote CT activities and events
- Collaborates with multiple CT departments on various projects related to tree planting and care needs
- Connects people to trees
· Other duties as assigned

**Competencies**

- Mentorship/Leadership
- Project Management
- Communication Proficiency
- Problem Solving/Analysis
- Safety Orientation
- Decision Making
- Technical Arboriculture
- Self-Motivation

**Working Conditions**

The incumbent works in the office and in the field. Must be able to use equipment such as (not an exclusive list): computer; smart phones and tablets; automobile; pickup truck with trailer; dingo machine; various hand tools such as shovels, loppers, rakes, saws, ladders, and pruning shears, etc.

**Physical Demands:**
