

STREAM ECOLOGY FIELD TECHNICIAN POSITIONS OPEN

The Warren Lab at OSU is seeking student field technicians for Summer 2022!

The work will contribute to an ongoing project assessing the effects of alternative riparian buffers on headwater streams in the Oregon Coast Range.

Technicians can expect to learn many common stream ecology methods while gaining insight into harvest operations research.

No experience required! Applicants must be enrolled during the summer 2022 term. For full consideration, please apply by March 25.
