**Temporary Environmental Forestry Technician, Weyerhaeuser**

**Location:** Centralia, WA

**Reports to:** Jason Walter, Aquatic Resources Unit Manager

**Submit resume to:** Travis.Schill@weyerhaeuser.com (253-720-4974)

**Salary:** \$17 per hour (w/ overtime paid at time and a half)

**Duration of Employment:** Approximately March through October

**Hours:** average 40 hours per week plus overtime

**Deadline for applications:** Monday, February 6<sup>th</sup>, 2023

**Background/Key Functions:**

As part of the Weyerhaeuser Environmental Forestry Research Team, the successful candidate will primarily assist Weyerhaeuser scientists and technicians in the collection of data on fish populations and stream habitat. Information collected will be used to support the development of effective forest management practices that provide protection for aquatic resources.

There will be opportunity to assist other Environmental Forestry personnel on additional projects as needed.

**Requirements:**

- BS degree OR working toward a degree in Fisheries, Forestry, Hydrology, Aquatic Biology, Ecology, Environmental Science or other related Natural Resources field.
- Ability to work safely under adverse conditions, in inclement weather and on harsh terrain
- Good physical condition: Ability to carry backpacks and field gear (30-40 lbs), and traverse safely on steep and/or uneven terrain
- Enthusiastic, highly motivated, detail oriented and eager to take on responsibilities
- Willingness/ability to travel within western Washington & Oregon (including overnight stays)
- Willingness/ability to work long field days as needed
- Able to work effectively both independently and in a team setting
- Valid driver's license and ability to navigate safely on logging access roads
- Strong computer skills, with experience entering and managing data in spreadsheets a plus
- Pre-employment drug screen required
